Bronberg Conservancy Plant list

August 25, 2011

The following plants have been positively identified. The majority of plants listed below may be found in the books “Field Guide to the Wild Flowers of the Highveld”, by Braam van Wyk and Sasa Malan, and “Field Guide to the Trees of Southern Africa”, by Braam van Wyk and Piet van Wyk. There are a number of plants in the Conservancy which have not yet been positively identified. Please help us to add to the list of identified species. Thanks are due to Owen Brett of the Dendrological Society for recent updates. Any additional information or suggestions should be given to Jane Morris Abson on 082 566 2210, or by e-mail to ejanemorris@gmail.com. Note that grasses are listed in a separate table at the end.
